FINE AUDIO RACKS

MC Edition

An exclusive collection of racks, specially designed and handmade in Italy to accommodate the electronics of the renowned blue-eyed American brand, blending luxury with superior functionality.

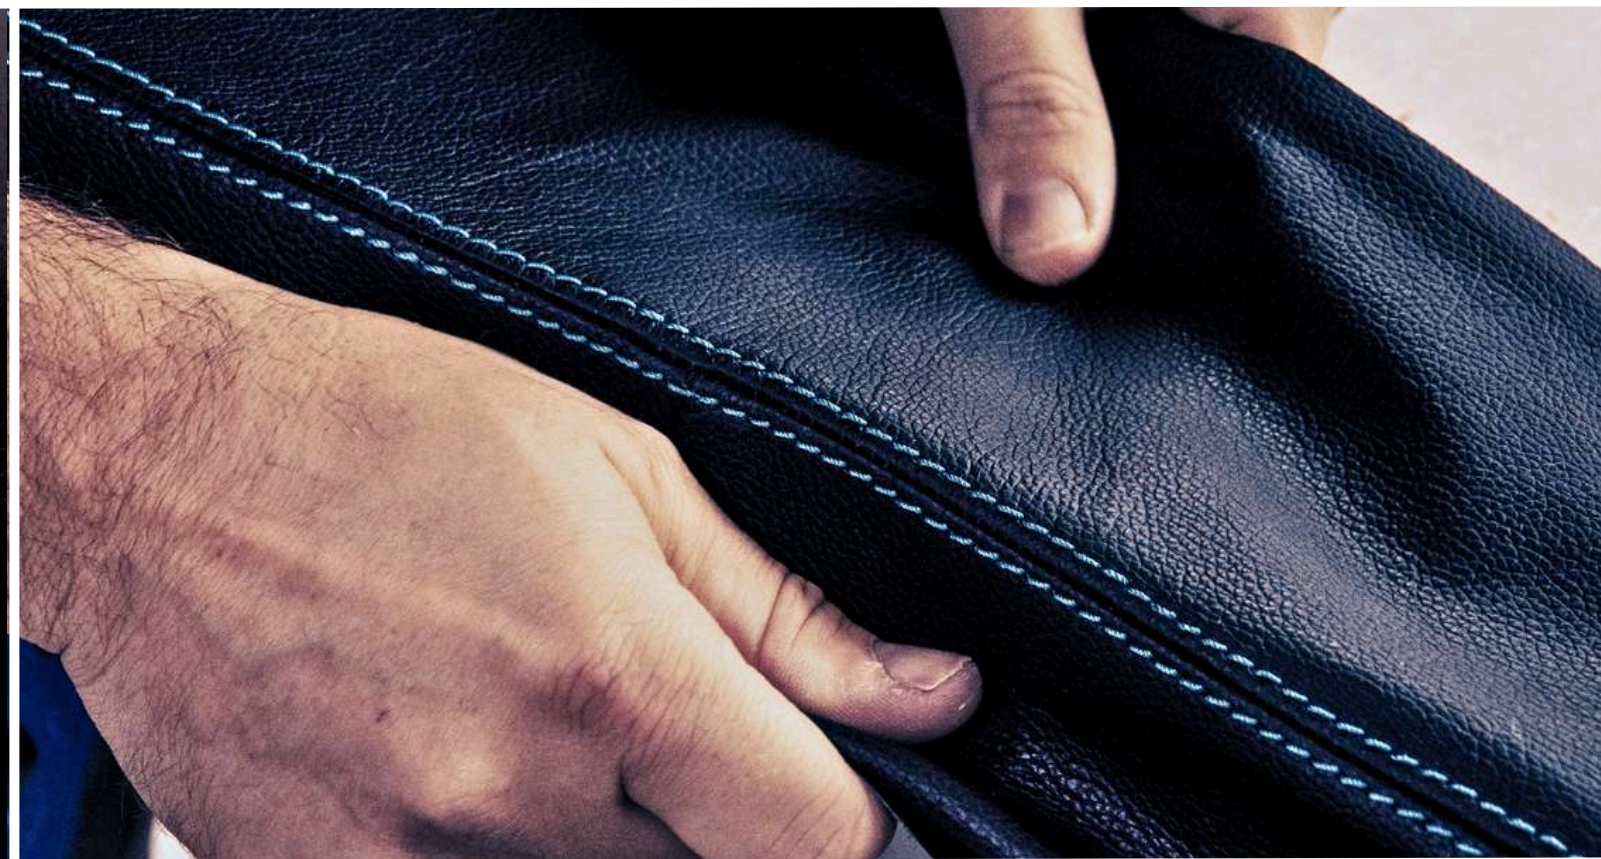

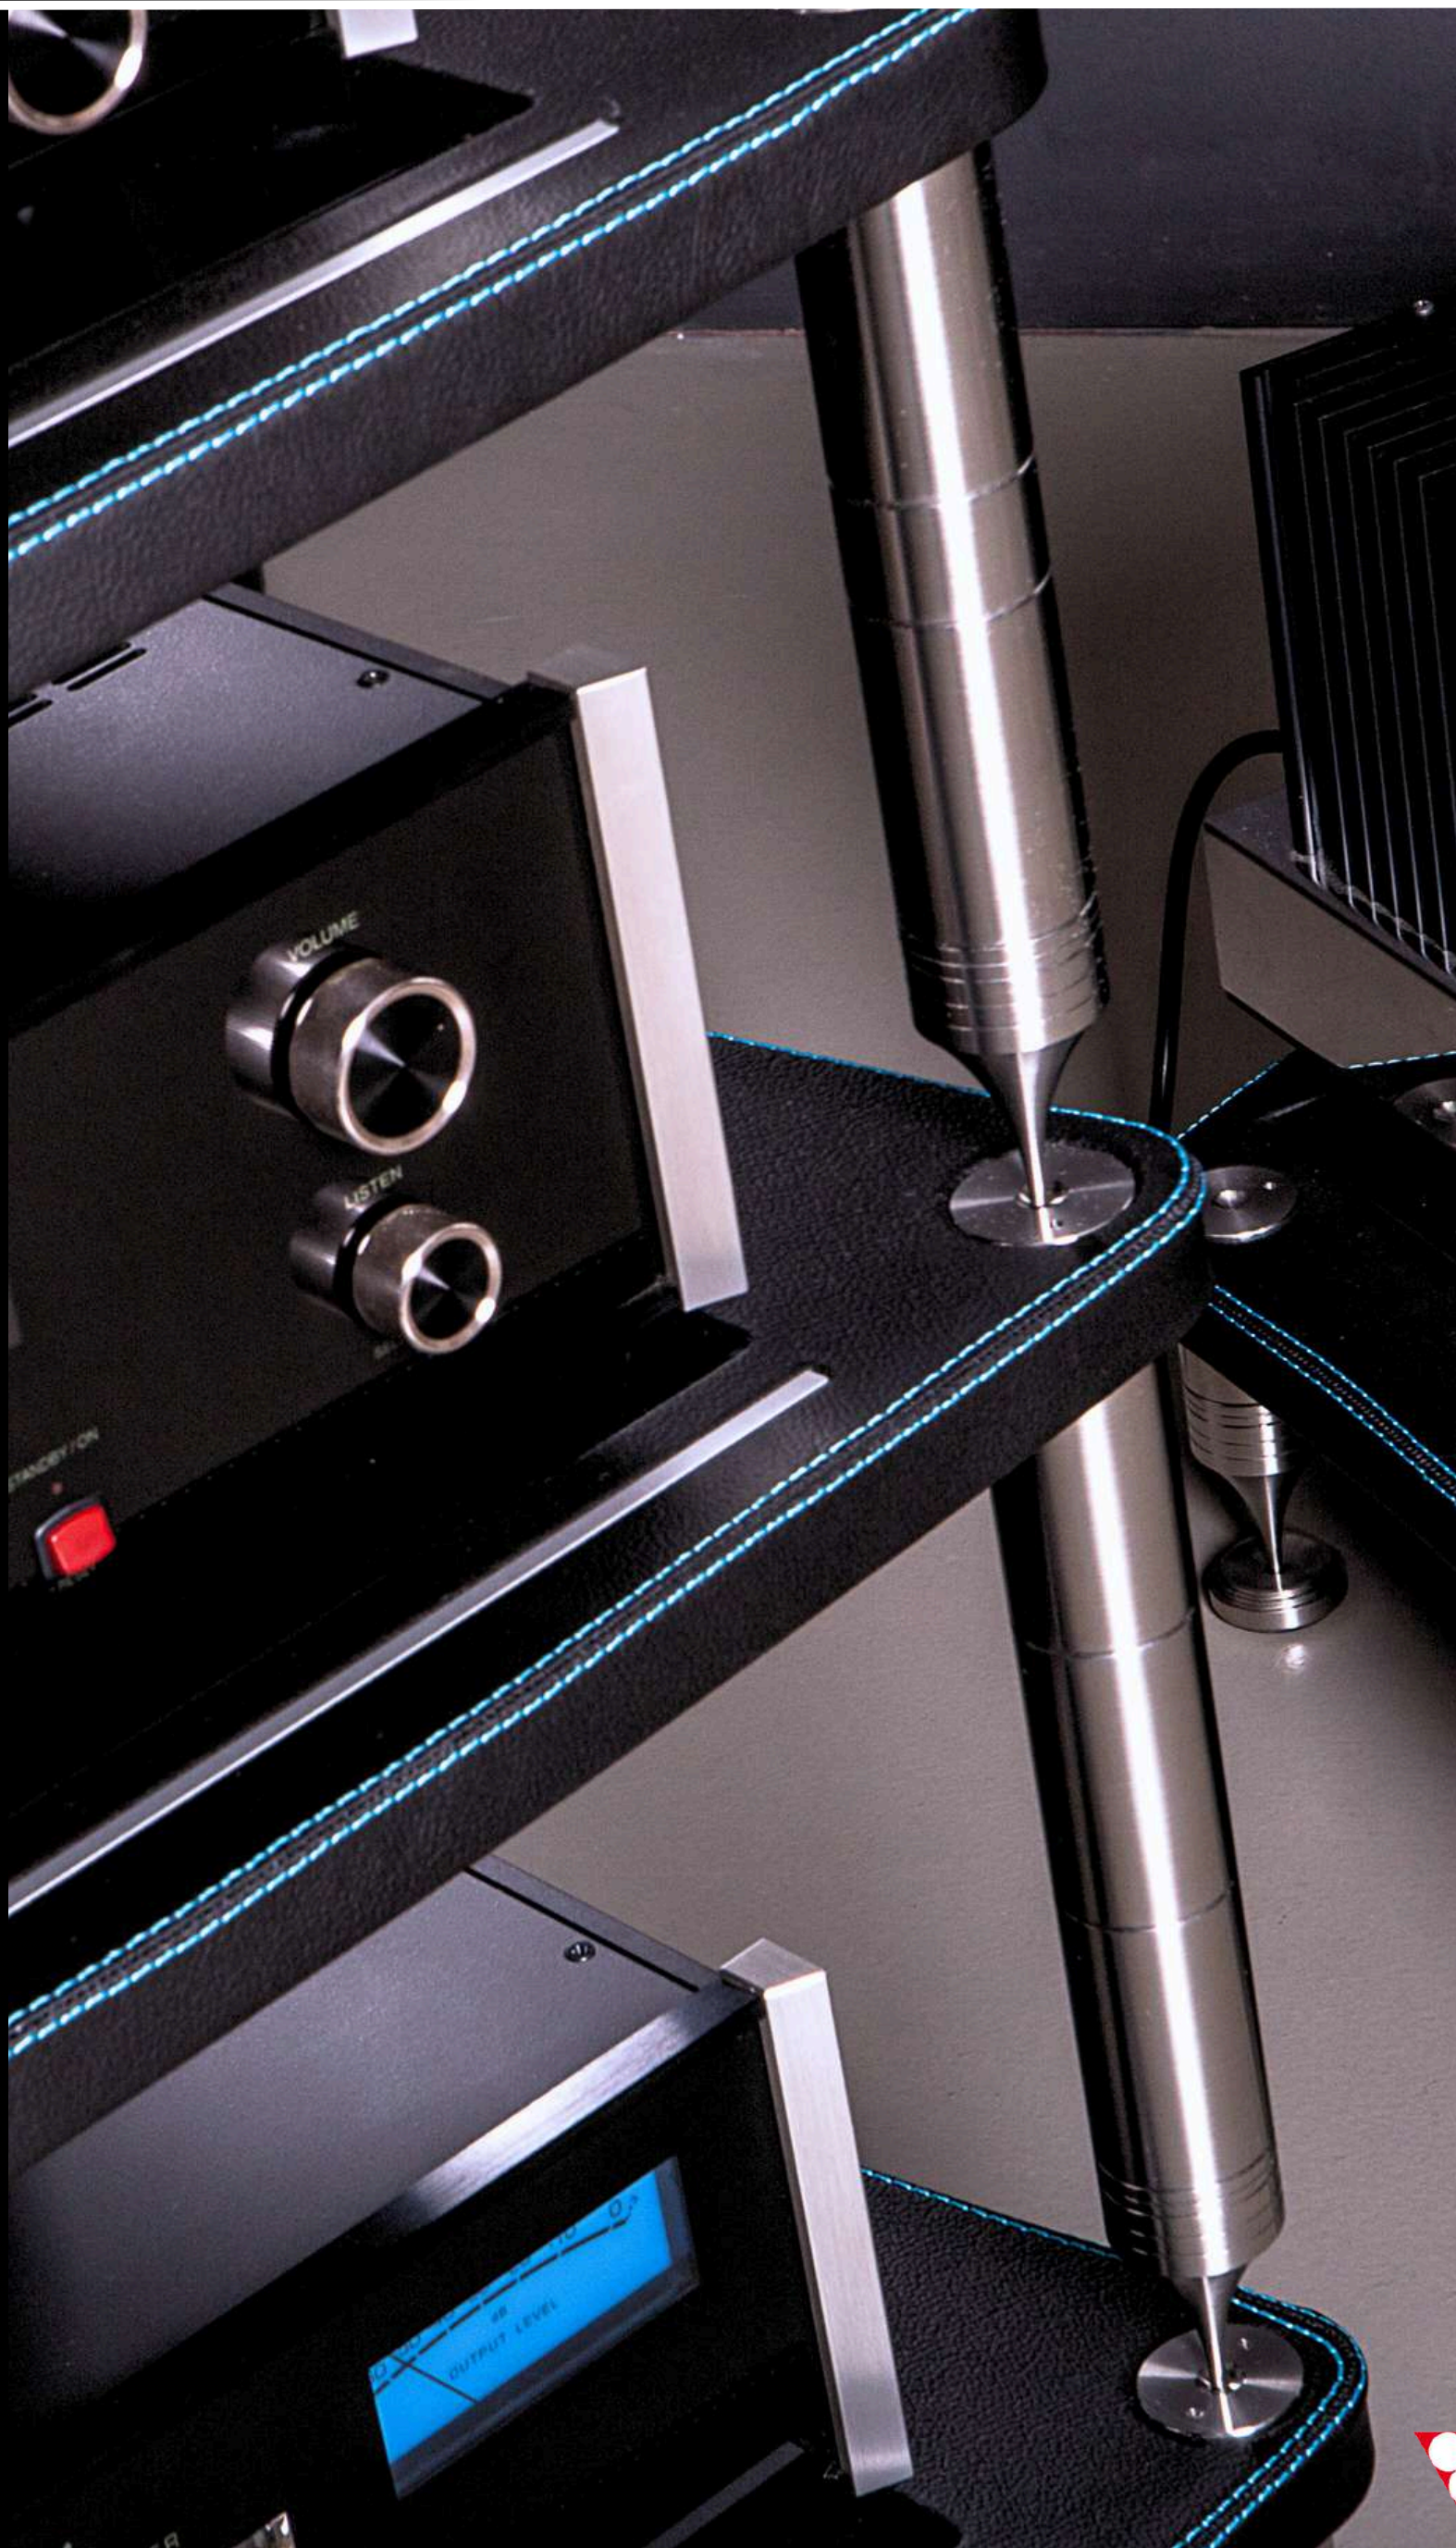

Each of these models embodies the perfect fusion of Italian craftsmanship and cutting-edge Reference line technology and can be fully customized according to the customer's needs.

MC Edition Aesthetics

- Shelves wrapped with genuine leather
- Light blue hand-applied stitching
- Light blue fabric on the backside of each shelf to match the colour of the US brand
- Black painted glass top panel.

Technical Features

- HDF shelves
- Solid stainless steel structure, completely modular and upgradeable.
- Solid stainless steel adjustable spikes
- 4 solid stainless steel mass damper under each shelf to reduce resonance frequencies.
- Rubber-like material under each shelf (to decouple it by the structure) and under floor-saving disks (for a perfect ground floor isolation).

LOAD CAPACITY: 200kg

USEFUL SIZE: 560 x 875 mm (W x D)

NUMBER OF LEGS: 5

A row of McIntosh audio components is displayed on a black leather stand in a modern, brightly lit room. The stand has four levels, each holding a different component. The top level features a McIntosh ST1000 Controller with a digital display showing "Balanced 5 57%". The second level holds a McIntosh amplifier. The third level holds a McIntosh tuner. The bottom level holds a McIntosh CD player. The background shows a large, geometric ceiling structure with a central skylight, and a person is visible in the distance. The overall atmosphere is clean and sophisticated.

MORE SPECIAL FINISHING

1. Limited Edition

Another version of the Mc Edition finish launched on the market in 2021 as a "Limited Edition."

What most characterizes it aesthetically?

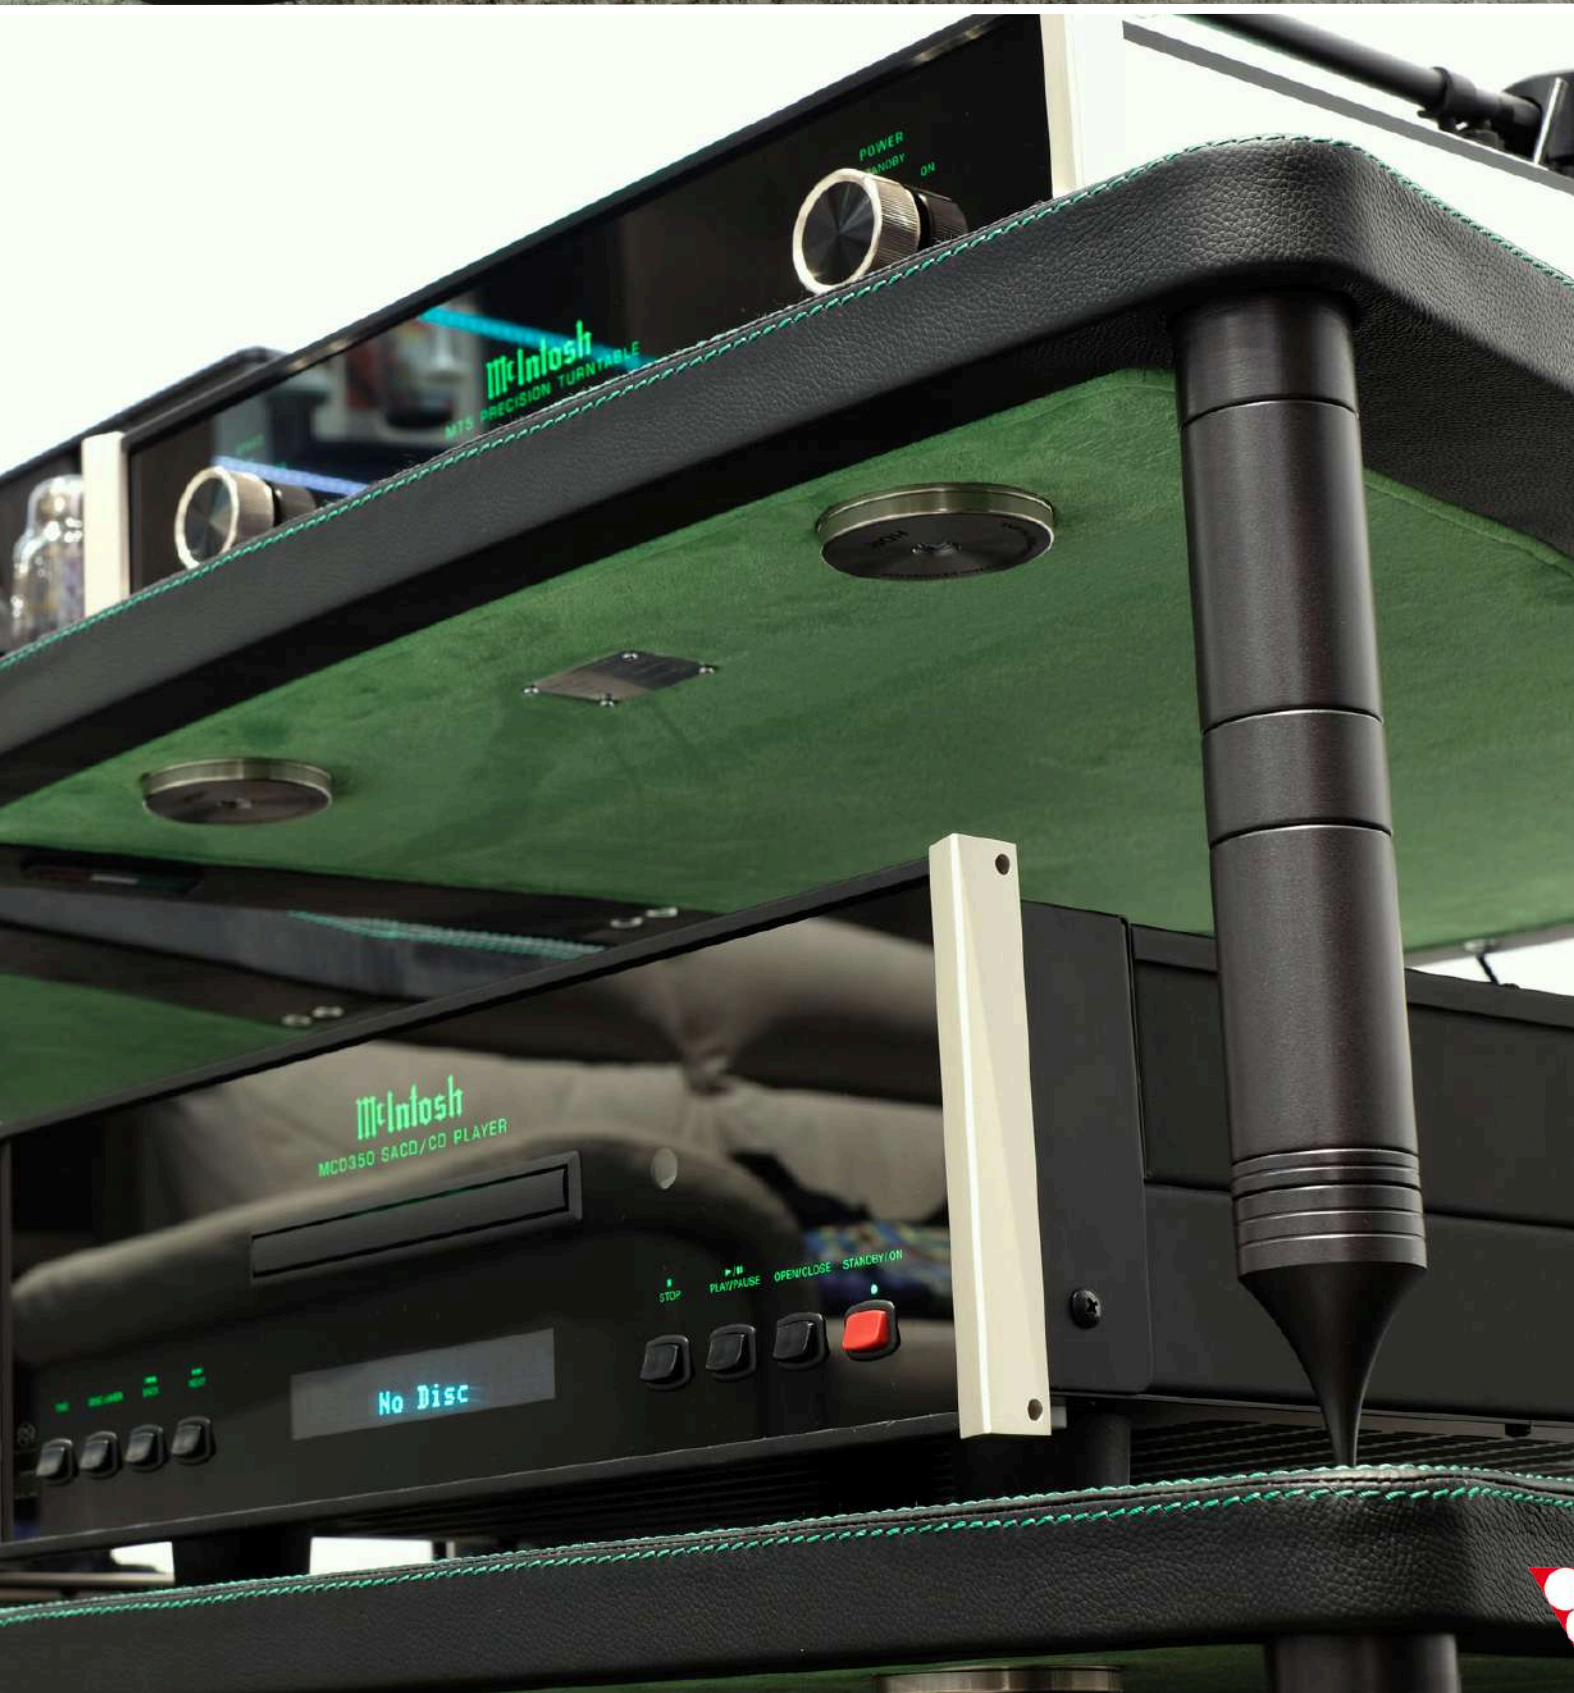

A few more light-blue details than previous versions that make this rack even more perfect for housing the famous American brand's electronics.

70th Anniversary Edition

In celebration of the 70th anniversary of the iconic blue-eyed American brand, we have introduced a special finish, ideal for those who own these electronics.

The primary colour is green, showcased in the stitching and the fabric on the back of each shelf. Complementing this, the legs are painted black, and the top panel is made of carbon fibre..
